About Me

Final-year Computer Science and Design undergraduate currently pursuing my degree, with hands-on experience in MERN stack development. Skilled in React.js, Node.js, MongoDB, and modern UI/UX practices, with experience building responsive, scalable, and user-friendly websites.

Internship

Nexotips Infotech

May 2026 – June 2026 | Surat, Gujarat

Frontend Developer Intern

- Contributed to the development of the Typing Test Pro application by building and improving responsive frontend interfaces.
- Performed manual testing on live company projects, identifying UI/functional issues and helping ensure application quality before deployment.

Webito Infotech

January 2026 – April 2026 | Remote

React Developer

- Integrated REST APIs using Axios to fetch and display dynamic inventory and user data, optimising frontend performance.
- Created responsive Admin Dashboards featuring multi-panel user management and real-time data visualisation.

Shonayavkash

June 2025 – July 2025 | Surat, Gujarat

Frontend Developer

- Built modular and maintainable user interfaces using HTML, CSS, and JavaScript.
- Gained hands-on experience in responsive design and effective teamwork.

Projects

Inventory Management System (IMS) | MERN Stack

[Github repo](#)

- Designed and developed a full-stack system to manage products, categories, suppliers, and customers with a real-time analytics dashboard.
- Designed a modern, responsive UI using React, and status tracking (Pending/Dispatched/In Stock).

AI-Based Resume Skill Analyzer | MERN Stack & Gemini AI

[Github repo](#)

- Developed a system to extract key skills from multiple resumes using AI-driven analysis.
- Developed a resume matching system that compared candidate profiles against job requirements and identified skill gaps.
